

### USE OF CAMERAS ON SCHOOL BUSES

In order to promote school bus safety for students attending the public, private and parochial schools in the Nashua School District the Board of Education empowers the Superintendent of Schools to utilize cameras on those bus routes under the jurisdiction of the District where behavior is such that either personal safety or the condition of the bus carrier's property is in question. Cameras may be utilized on those routes where the behavior of riders is such that the regular methods of discipline have failed to insure a safe bus ride to and from school. Developed film will become the property of the school district and will be stored at the office of the Superintendent of Schools. All film will be destroyed at the conclusion of the school year unless it must be retained due to pending appeals or litigation. All film will be used in a manner that is consistent with protecting the confidentiality of persons pictured. Students may be suspended from riding the bus in accordance with RSA 189:9-a.
