

April 1, 2024

Dear NSD Families and Staff,

I am writing to let you know the Nashua Board of Education is holding a meeting tomorrow, Tuesday, April 2, at 6 pm at Fairgrounds Middle School and is inviting families to learn about the school district's agreement with the US Department of Justice (DOJ). After the meeting, families of English learners are also welcome to join a listening session with the DOJ.

In May 2021, NSD entered into a three-year agreement with the DOJ to provide added levels of instruction and support for English learning students. At that time, seven areas of remediation were identified:

- provide sufficient ELL services to all of our ELL students
- provide sufficient ELL certified teachers to staff the ELL program
- provide meaningful access to core content instruction for ELL students
- provide training to principals so they can adequately evaluate teachers of ELLs
- provide sufficient curricula to implement the ELL program
- communicate more effectively with ELL parents
- adequately evaluate the efficacy of the ELL program

To learn more about the meeting, please see the attached invitation and [click here](#) for the Board agenda.

Thank you.

Mario Andrade, Superintendent of Schools
