Kindergarten Makes Way for Chicks

The kindergarteners are 'egg'-cited to be hatching chicken eggs this year and are looking forward to learning how they develop inside their eggs! We are eagerly counting down the 21 days of incubation until our baby chicks start to hatch... May 20th is Hatching Day! We explain to the kindergarteners that hatching eggs is like a number story. We began by placing 24 eggs into the incubator but some eggs may be yolkers and never start growing, some eggs can be quitters and stop growing, and fingers crossed many will be winners that HATCH!
