

ADDITION OF CURRICULA OR PROGRAMS

As of February 1, 1979, except for the curricula and programs already approved by the Superintendent for the 1979-80 school year, the Superintendent may not add any curricula or programs in any area within the purview of the Superintendent, unless the Superintendent correspondingly eliminates an ongoing course, subject or program of approximately the same cost; or unless mandated by Federal or State Governments; or unless required by current School Board-Teacher Master Agreement. However, the Board of Education, by majority vote, may approve any new courses regardless of limitations stated above.
